Wheelchair Friendly Transport Options

Public Transport

Most buses and MRTs are fitted to be wheelchair accessible. This provides a cost effective option that minimises the need for transfers into and out of cars.

Commercial Vehicles

Depending on the provider vehicles may be equipped with a foldable ramp to facilitate access, or utilise purpose-built vehicles equipped with hydraulic lifts.

Private Hire Cars

Grab is a ride hailing app which provides on-demand transport services. Grab Assist uses cars that can store foldable assistive device and have drivers who are trained to handle mobility devices and assist users. This service is more suitable for those who can transfer on their own or with a caregiver.

Community Accessibility via SG Enable

Car Park Label Scheme

Drivers or passengers with mobility issues can apply by submitting an application with a completed "Mobility Report" attached

Taxi Subsidy Scheme

Individuals who have been medically certified to be unable to use public transport for school, work or employment-related training, can apply for a taxi subsidy

Person with Disabilities Concession Card

Singapore Citizens and PRs (between 7- 60 years old) with a certified disability, can apply for subsidised fares for public bus and train services fares
